Virtual DuPSUG – Terminal & VSCode

PowerShell 7.1.0-Preview.1

- .Net 5 Preview (PowerShell 7 is built against 3.1.2)
- Improvement in Web cmdlets
- Fixed Stop-Computer / Restart-Computer on non-Windows
- Get-Date -AsUTC
- A bunch of bug fixes

PowerShell versioning

 **Joel Bennett** @Jaykul · Apr 11
@joeyaiello @Steve_MSFT has the PowerShell team talked about possibly skipping a version number (or bumping the major version again) to get the PowerShell LTS releases to be evenly numbered to match the .NET LTS strategy you're aligned with?

3

 **Joey Aiello**
@joeyaiello

Replying to @Jaykul and @Steve_MSFT

No. I wouldn't ever rule out something like that indefinitely, but right now the stick in the ground is to stay on 7.x.

If you want a heuristic, even x == LTS, odd x == current

.NET Core Supported OS Lifecycle Policy

.NET Core is [supported by Microsoft](#) on a range of operating systems.

Each supported operating system has a lifecycle defined by its sponsor organization (for example, Windows). The .NET Core team applies each of those lifecycle schedules to inform adding and removing supported versions.

The following support documents list currently supported operating system versions for .NET Core.

- [.NET 5 supported OS versions](#)
- [.NET Core 3.1 supported OS versions](#)
- [.NET Core 2.1 supported OS versions](#)

Microsoft will make Ignite and other 2020 events online-only

Statistics

FOR 2019

200+

Over 200 attendees
from all over the world

24

More than 20 speakers
from different areas of IT

39

Close to 40 world class
sessions delivered

WHAT

The PowerShell Conference Asia 2020 resumes for its 6th year this November, Bringing speakers from Asia and around the world to deliver in-depth PowerShell and DevOps sessions.

Speakers include the Microsoft PowerShell Product Team from headquarters in Redmond and a strong line-up of MVPs, well-known international speakers, and community contributors.

Last year the conference was first time organised in Bangalore, India and received a huge turnout of more than 200 attendees .

This year we are more excited and expecting to host a bigger event in 2020.

Let's make ideas happen. Learn from experts and network with others.

We look forward to welcoming you to the event!

PowerShell + DevOps Conference Asia 2020
